- Compatible With All Systems
- Eliminates Workplace Injuries

# High pH Presoaks

## SELECT 35

**A T S**

A highly concentrated alkaline cleaner with a lemon fragrance. This premium presoak is designed with the latest technology in road film removal. It produces cleaner and shinier glass, paint, wheels and white walls. This cutting edge formula is also hard water compatible so you can count on it.

## CLEAN

**A T**

This product benefits from the latest surfactant and alkaline builder technology to bring consistent results. Additionally, it has improved hard water tolerance for those sites where consistent soft water is a problem. It also works as a great tire & wheel cleaner or high pressure prep soap.

## TITAN

**A T**

An ultra-concentrated alkaline cleaner for those tough cleaning conditions. It produces cleaner and shinier glass, paint, wheels and white walls. This formula is also hard water compatible so you can count on it.

## BLUE MONSTER

**A T**

A powerful alkaline presoak that delivers a great citrus clean. It is specially formulated to remove the tough road films while not damaging or blushing trim on the vehicle. It is functionally versatile and can be used in a variety of applications including bug remover and tire cleaner.

## CITRUS PLUS

**T S**

Citrus scented alkaline presoak with a great foam profile. This product is a perfect match for tunnel and self-serve applications. It provides the customer with a great show and shinier vehicle. It is buffered to protect soft metals such as brass and aluminum.

## PURPLE PRESOAK

**S**

Grape scented! Purple foam! Truly a lot of grapeness packed into an alkaline foaming detergent. Dazzle customers with this great cleaning presoak and keep them coming back for the awesome color and scent.

# Understanding EZ Presoak

## Presoak Mixing System...

Fill/Draw Tube  
Used to hold chemical feed lines and prevent getting caught in propeller.

60 Minute Timer  
Set it and forget it.

Stainless Steel Mix Shaft & Prop  
Durable enough to withstand harsh alkaline conditions.

1/3 Hp Motor  
More than ample torque to mix any twin pack.

Measuring Stick  
Adjustable slide stick to help measure the proper amount of fresh water.

### FEATURES & BENEFITS

- 1 TP = 27.5 Gallons, 2 TP = 55 gallons
- Easy to handle
- Easy to mix
- Eliminate workers comp worries
- Saves shipping with unique twin pack design
- Saves space by eliminating drums
- Once mixed, stays mixed

## Low pH Presoaks

### RELEASE

**A T**

This product is a low pH presoak to be used as the first step of a two-step wash process. This product is similar to other low pH presoaks, but with a better foam profile, pleasant fragrance and more balanced usage. It effectively cleans tough road films and leaves glass and paint shinier

### FURY

**A T**

This product is highly effective at removing window films and eyebrows from windshields, as well as cleaning and brightening aluminum and chrome. This product is designed to remove road film during the seasonal "tough clean" times

# Tire & Wheel

## ROAD RAGE

**S**

This heavy duty alkaline detergent is designed to clean both wheels and tires. This product removes the toughest road soils and aids in the release of brake dust from wheels. This specialized formula is ideal for self-serve applications with its fluorescent yellow foam and mint fragrance.

## SLAM

**A T**

Down and dirty, this concentrated alkaline cleaner is perfect for making wheels and tires amazingly clean. This product is highly effective at removing greases, oils and brake dust from the toughest tires. Just sit back and enjoy the show.

# Tire Shine

## SHOWTIME

AT

This oil-based silicone tire dressing is designed to be used in conveyor wash systems where tire dressing is applied mechanically through brushes, foam pads or cloth. Due to its unique blend of silicones this tire dressing reduces “sling” while creating unmatched gloss with minimal product usage.

## TIRE SLICK

AT

This product is a high-gloss water based silicone tire dressing. Upon application it will have a white appearance that will turn clear leaving a glossy tire. This product has benefits of an oil-based tire dressing without the messy cleanup.

# Detergents

## EZ LOW PH

**A T**

This highly concentrated low pH detergent provides amazing results, while driving costs down. This product generates thick white foam that helps lubricate wraps and keeps them looking clean. This product also neutralizes alkaline presoak carryover to improve drying agent performance.

## PLUMMETT

**A T**

This product is an extremely strong low pH foaming detergent. It provides amazing amounts of white foam while delivering a strong acid punch. Plummet neutralizes alkaline presoak carryover to improve drying agent performance. Additionally, it produces shinier paint and glass surfaces.

## BUBBLICIOUS

**A T S**

This foaming auto shampoo produces lush soft foam with an extremely stable profile that is ideal for all friction applications. The gentle detergents help lift dirt away dirt and leave a clean and shiny car. This is a must have as customers can't help but be mesmerized by its awesome show and Bubble Gum fragrance.

*\*Available in white or pink foam\**

## WRAP LUBE

**A T**

Tired of squeaky cloth? Then this is your answer. Using state of the art polymer technology this product provides excellent foam and even better lubricity for friction applications. This lubricating detergent is designed to eliminate the squeaking and grabbing of all cleaning materials.

## KNOCKOUT

**A T S**

This concentrated high pressure detergent has amazing fragrance and foam. Designed for use in self-serve applications, this moderately alkaline detergent will give customers the cleaning power they crave. With its powerful Clean fragrance, Knockout will deliver a performance worthy of its name.

## LEMON RUSH

**T S**

Think presoak meets foaming detergent and what you get is Lemon Rush. Designed to bring all the cleaning benefits of an alkaline presoak, this product does a great job of removing grimy road film, splattered bugs and greasy debris. Its pleasant lemon fragrance will put customers over the top!

# Triple Foams

## FOAM BEAD

**ATS**

Think drying agent meets triple foam and you are on the right track. This triple foam is truly a must have if rinsing and drying are a problem. It generates nice foam while not compromising on dye and fragrance. There is a reason this product has been around for 20+ years and still going.

## EZ TRIPLE FOAM

**ATS**

This ultra-concentrated triple foam conditioner puts on an amazing show. Part of the SPLENDOR family, this product provides thick luxurious foam with excellent lubrication properties. Flexibility is a huge upside to this product as it can be used in in-bay Automatics, Tunnels and Self-Serve Applications.

# Drying Agents, Polishes & Waxes

## FAST BREAK

**A T S**

This highly concentrated product offers big time results with minimal usage. It was designed to meet increasing need for high flash drying agents while not sacrificing drying performance. This product offers no frills, but works consistently every time.

## LIQUID TOWEL

**A T S**

A light blue, mint scented drying agent designed to bead water to enhance natural or air blower drying. This drying agent is a workhorse that can be used in in-bay automatics, tunnels and self-serve applications.

## RAINSHIELD

**A T S**

This product is comprised of a polymer system that will bond to the vehicle surfaces providing extended shine, protection and water repellency. Not only will it shine the vehicle, it provides a great show with yellow foam and an amazing dreamsicle fragrance!

## COLADA SHEEN

**A T S**

This product produces a rich foamy lather that covers the car in carnauba wax and other specialty additives. Loaded with Pina colada fragrance and bright yellow foam it smells amazing, looks great and leaves your car looking awesome.

## POLY-TECT

**A T S**

This product uses a proprietary non-silicone polymer fluid, fortified with UV inhibitor that provides exceptional shine that customers WILL notice. Once applied, this polymer fluid will not evaporate like traditional mineral seal oil based drying agents, thus providing substantially longer water and UV protection.

## BERRY BEAD

**S**

With light foam and a blast of berry fragrance this series produces a high beading action. Siliconized carnauba additives create lasting protection and improved shine. This product is specifically designed to be used in high pressure self-serve wax applications.

## SILK

**A T S**

Creating an unmatched feel on all painted and glass surfaces, Silk doesn't just restore that new car feel, it improves it. Comprised solely of ceramic additives, this product is all about performance and functionality; Generating a silky-smooth surface to help shed water, reduce wiper chatter, and provide complete protection.

## NOVA

**A T S**

Using an innovative technology that incorporates ceramic additives, this product produces a superb dry that leaves the vehicle super glossy and velvety to the touch. It provides lasting protection against the elements to make it easier to keep your vehicle clean. Take your drying from a weakness to a thing of beauty.

# Specialty Products

## SCENT BLASTS

**A T S**

Tired of the same old smell in your carwash? Your customers are too. Blow them away with this fragrance booster! This product can be dual injected with products or applied directly to the vehicle through our Scent Shot system.

*Scents include: Cherry, Lemon, Dreamsicle, Grape, Piña Colada, Candy Cane, Eucalyptus Mint and more!*

## D-BUG

**A T S**

A specially formulated bug remover for softening and removing bug residues on all vehicle surfaces. This product is an alkaline detergent designed not to harm paint, chrome, rubber or glass. Its medium foam profile allows for easy visual application and coverage.

## RLC

**A T S**

Designed to be used as a multi-purpose cleaner for wash bays and equipment. RLC is highly effective at removing rust, lime deposits and calcium build-up. This product is a great maintenance cleaner for windows and blower housings where calcium and rust are commonly found.

## ALKALINE BOOSTER

**A T**

This product is designed to give alkaline presoaks, wheel cleaners and prep detergents an added boost without hitting you where it hurts, the pocket book. Simply dual inject product to the desired strength and watch "tough clean" become a thing of the past.

## RUST INHIBITOR

**A T**

A corrosion inhibitor for underbody rust protection. This products applies a temporary barrier of protection between your car and the elements. This product is a must have where salt is commonly applied to de-ice the roads.

## A-SALT

**A T S**

This product is specially formulated to treat and remove heavy road salt deposits while leaving behind a protective anti-rust barrier. Simply apply as an undercarriage application, low pH presoak or standalone metal cleaner. Either way you'll stop rust in its tracks and your customers will thank you.
